

Tile Cleaner

Merlin Tile Cleaner is a formulated chemical cleaner for pre cleaning of surfaces prior to treating with Merlin Tile Profiler and for the ongoing maintenance of the treated surface.

Specially formulated for use on tile surfaces Merlin Tile Cleaner will remove grease and soap residues ensuring anti slip properties are maintained.

Benefits

- Removes oils, grease and soap residue
- Can be applied to both wet and dry surfaces
- Suitable for indoor or outdoor use
- Can be safely used in food areas
- Fully biodegradable
- Kills bacteria and reduces re-infestation

Method

Preparation

- All surfaces must be free from detritus.

Application

- Dilute Merlin Tile Cleaner as required (see table below) with clean water.
- Apply using a squeegee or mop.
- Allow to stand for the required time (see table).
- Rinse with clean water and remove by mop or wet vacuum cleaner. Rinsing water can be disposed of as normal waste.

Dilution rates

Pre clean	up to 50:1
General cleaner	up to 100:1
Spot treatment	neat
Maintenance cleaner	up to 50:1

Standing Time

Pre clean	minimum 15 minutes
General cleaner	not required
Spot treatment	30 minutes
Maintenance cleaner	up to 15 minutes

We always recommend a small trial is carried out to establish the suitability of the treatment and optimum standing time.

Technical details

Pack size	5 Kilo unit
Mixing ratio	see usage chart
Application rate	see usage chart

Application conditions

Minimum temperature	0° C
Maximum air RH	100%
Maximum surface RH	100%
Return to service	Immediately after rinsing
pH	4.0
Specific Gravity	1.07
Flash point	above 100 ° C
